SSN and state of residence, or state identification/driver's license is needed to verify patient eligibility. If a SSN and state of residence, or state identification/ driver's license is not submitted, you will need to attest that you attempted to capture this information before submitting a claim and the patient did not have this information at the time of service, or that you did not have direct contact with the patient and thus did not have an opportunity to attempt to capture this information. Claims submitted without a SSN and state of residence, or state identification/driver's license may take longer to verify for patient eligibility.
