Impact Report for the Year 2024

## A B O U T   S T .   M A R Y ' S

Founded in 1870 in the heart of New York City, St. Mary's Healthcare System for Children was New York City's first medical facility for children and is currently one of the only providers of post-acute pediatric care. St. Mary's is recognized as a national pediatric healthcare leader for its innovative approaches and high-quality care.

As the largest provider of long-term care for children with complex medical conditions in New York State and one of the nation's leading providers of pediatric post-acute care, no one has brought more pioneering programs—like the pediatric feeding disorders and state-of-the-art rehabilitation programs—or offers a greater continuum of care than St. Mary's.

We provide specialized inpatient care, day healthcare, rehabilitation, home care, and education services to children and young adults following acute care hospitalization due to premature birth, illness, injury, or other critical health conditions. Our family-centered philosophy, combined with advances in medicine and technology, helps children survive illness and injury once thought impossible to overcome.

## M I S S I O N   S T A T E M E N T

St. Mary's Healthcare System for Children is committed to improving the health and quality of life for children, young adults, and families with medical complexity and special healthcare needs.

**On the cover:** The annual Walk for St. Mary's brings together patients and families, hospital staff, and members of the community whose big hearts and support give our kids a head start.

## Dear Friends and Supporters,

As I step into the role of President and CEO of St. Mary's Healthcare System for Children, I reflect on 10 years of service to this extraordinary community. From the moment I walked through the doors, I have been inspired by the compassion, dedication, and unwavering commitment that defines who we are—all made possible by supporters like you.

As I reflect on the past year, my heart is filled with immense pride and gratitude for the incredible impact St. Mary's Healthcare System for Children has made in the lives of the children and families we serve. Thanks to your partnership, we continue to provide exceptional care to children with complex medical conditions, helping them achieve their best possible quality of life.

This year has been a remarkable journey of resilience, innovation, and collaboration. Our dedicated team of healthcare professionals has worked tirelessly to deliver compassionate, state-of-the-art care tailored to the unique needs of each child. From transformative therapies to joyful moments in our recreational programs, every achievement reflects the strength of our shared commitment.

At St. Mary's, we know that caring for children with complex medical needs is a team effort. It takes the dedication of our staff, the courage of our patients, the love of their families, and the compassion of donors like you to make a difference. Your contributions have allowed us to invest in innovative equipment, enhance our facilities, and provide essential support services beyond medical care.

Your compassion and partnership mean the world to us, and we are so grateful to have you as part of the St. Mary's family. Together, we're creating brighter futures for the children we serve, and I look forward to all that lies ahead.

With heartfelt appreciation,

Sean Lally  
President and CEO  
St. Mary's Healthcare System for Children

# Spotlight on Muhammad!

It is our honor to introduce Muhammad, an inspiring young man who embodies resilience and determination. At 27 years old, Muhammad lives in Queens with his loving parents and is the eldest of three siblings. His family is his greatest support system, and their bond is the foundation of his strength.

Born with cerebral palsy, Muhammad has never let his diagnosis define him. Since 2019, he has been a dedicated participant in **St. Mary's Medical Day Healthcare Program**, attending five days a week. The program provides him with vital physical, occupational, and speech therapy, helping him build the skills he needs to achieve his goals.

Muhammad's days at St. Mary's are filled with growth and connection. He uses an AAC (Augmentative and Alternative Communication) device to communicate with heart and passion, allowing him to express himself and share his love for writing with others. He thrives on the meaningful social interactions he shares with his peers and looks forward to the community outings that bring him joy and new experiences.

But what drives Muhammad most is his unwavering desire for independence. Every day, he works tirelessly to master activities of daily living, taking steps toward greater autonomy and achieving personal milestones.

Muhammad's journey is a testament to the power of perseverance, the importance of community, and the impact of programs like those at St. Mary's. He inspires everyone around him, reminding us that with the right support and a determined spirit, anything is possible.

## EMPLOYEE SPOTLIGHT

# Meet Claire Mahon, Lead Therapeutic Activities Assistant

For more than a decade, Claire Mahon has been a familiar and friendly face at St. Mary's Hospital for Children. Claire's journey with St. Mary's began in 2014 as a student intern in Inpatient Recreation, and since then, her passion and dedication have only grown.

From her early days as a per diem team member in the Medical Day Healthcare Program to her current role as Lead Therapeutic Activities Assistant, Claire has continuously demonstrated her unwavering commitment to creating engaging and enriching experiences for children, young adults, and families.

As Lead Activities Assistant, Claire coordinates the planning and organization of recreational and therapeutic activities for our kids. She and her team play a vital role in enhancing the well-being of participants by providing engaging and meaningful experiences that promote physical, emotional, and social health.

Over the years, Claire has witnessed St. Mary's growth and transformation, and she is proud to be part of a team that continually evolves to meet the needs of the children and families it serves.

# Transformative Programs

## MDHC Prom

In June 2024, the Medical Day Healthcare Program (MDHC) hosted its third annual prom, made possible by generous support from the Dunkin' Joy in Childhood Foundation, which provides funding for grantee hospitals to develop a prom theme and secure event space, food, entertainment, photographers, formal wear for patients, and ultimately provide an incredible prom night for teens.

Prom is typically celebrated by almost every teen each spring, but for young patients battling illness, there is a chance they'll miss this milestone moment. This year's event brought together our young adults living with cognitive and physical challenges for a joyful day of music, dancing, and celebrating.

## The Sim Lab

On July 25, 2024, St. Mary's Healthcare System for Children marked the opening of the new simulation lab, designed to help train staff, parents, and caregivers on how to take care of their medically fragile kids.

This simulation lab allows for the practice of handling real-world medical scenarios while eliminating the risks that may come with training with real patients.

Thanks to this simulation lab, St. Mary's will be able to train parents and caregivers on how to prepare for their child's safe discharge and how to care for them at home.

The lab enables them to familiarize themselves with the equipment utilized by the children on a daily basis, and training is based around the unique individual needs of each child.

## Palliative Care

In November 2024, as we observed National Hospice and Palliative Care Month, we also proudly celebrated 40 years of palliative care, a milestone that reflects our commitment to providing compassionate, innovative support to children with life-limiting and life-threatening conditions.

Palliative care at St. Mary's goes beyond medical treatment, ensuring that every child experiences comfort, dignity, and joy. It offers physical, emotional, and spiritual services throughout the child's journey, with the goal of pain and symptom management and quality of life.

The strength of St. Mary's palliative care lies not only in its mission but also in its people.

We celebrate the extraordinary work of our palliative care team and honor the children and families who inspire us daily. Together, we will continue to find magic in the moments and joy in the journey.

## Rock Climbing Wall

Young adults climbed to new heights on the Adaptive Rock Climbing Wall! This thrilling experience gives them the chance to conquer challenges, have fun, and build confidence.

The Climbing Wall challenges and inspires the children in our occupational and physical therapy programs while adding an element of fun. Climbing from one side to the other creates a sense of accomplishment as they practice balance, build body awareness, increase muscle strength, develop gross motor skills, and problem-solve. Climbing also provides proprioceptive input to improve sensory integration. The wall features large handholds, grab bars, and wide ledges to place feet, providing stability, extra support, and a feeling of control.

We are so proud of their amazing achievements and unstoppable spirit.

## Parks and Rec

As a collaboration between the MDHC and Occupational Therapy programs, “Parks and Rec” is a prevocational program where St. Mary’s works directly with the NYC Parks and Recreation Department to teach our young adults ages 18 to 30 essential pre-vocational skills and help them develop a sense of independence. Participants in the program have a range of disabilities including autism, cerebral palsy, neurological disorders, and disabilities resulting from trauma. Our occupational therapists dedicate their time and expertise all season to support and educate our young adults.

From early summer on, the group picked up litter and raked leaves across Crocheron Park in Bayside. More recently, they began to spruce up heavily chipped park benches with a layer of fresh, dark green paint—the same color as their matching T-shirts and uniform for the job.

And now every Thursday, the members leave the park in a better state than they found it and walk away with enhanced skills and a sense of accomplishment.

# How We Celebrated

## Tribute Dinner

The 2024 Annual Tribute Dinner was a standout evening of generosity and celebration, bringing together leaders, advocates, and supporters who share in our mission to improve the health and quality of life for children, young adults, and families with medical complexity and special healthcare needs. Held at Gotham Hall in New York City, the event raised \$1.4 million in critical funds to support life-changing programs and honored individuals who have made a lasting impact on the St. Mary's community. In 2024, St. Mary's was proud to honor Joseph Mizzi, President and Chief Operation Officer of Sciame Construction.

## Annual Monster Mash

Families from across the borough gathered at St. Mary's Healthcare System for Children on October 27, 2024, for the annual "Monster Mash," a Halloween-themed event aimed at raising essential funds for St. Mary's Kids. The day featured music, games, trunk-or-treat, raffles, a costume

contest, and a special visit from Mr. Met, providing entertainment for all ages while supporting St. Mary's specialized programs and services.

Monster Mash is an opportunity to come together as a community to support the children and families we serve and to celebrate the beginning of fall. Funds raised from Monster Mash go directly toward enhancing long-term and rehabilitative care provided by St. Mary's.

STATISTICS

# St. Mary's by the Numbers

St. Mary's Healthcare System for Children cares for more than 2,000 children and their families in the New York Metro Area annually. During 2024, we surpassed expectations in the number of services, programs, and equipment that help to ensure the welfare of St. Mary's Kids for years to come.

# Giving in Action: Meet Some of Our Donors

## Amazin' Mets Foundation *Eye Gaze*

In a new partnership with the Amazin' Mets Foundation, St. Mary's Healthcare System for Children received a \$75,000 grant to enhance communication for nonverbal children through eye gaze technology. This funding will support the acquisition of specialized devices designed to track eye movement, enabling children to express their thoughts and needs without verbal communication.

The eye gaze devices function through a sophisticated eye-tracking system that closely resembles a tablet. A specialized tracking bar is attached to the device, which monitors the child's eye movements. A multidisciplinary team of speech therapists, occupational therapists, and special educators calibrates each device to suit individual needs. This technology allows children to produce speech output simply by blinking or focusing on specific icons on the screen.

St. Mary's has already begun integrating two eye gaze devices on-site and is witnessing promising results.

## Bourbon Street Restaurant *"Moving Up" Ceremony: Pre-K Graduation*

St. Mary's Hospital for Children held its annual "Moving Up" ceremony in August, where children graduating from the two-year Pre-K program celebrated with family and staff. Instead of clapping, attendees threw up jazz hands and pom-poms so as not to overstimulate the children, who were sensitive to sounds and stage fright.

The Bourbon Street restaurant on Bell Boulevard, a longtime supporter of the hospital, was honored with a plaque for their ongoing generosity.

## Maureen Folan Big Hearts Walk for St. Mary's Kids

More than 500 New Yorkers came together at Crocheron Park in Bayside to show their support for St. Mary's Kids at the 2024 Big Hearts Walk for St. Mary's Kids. In a powerful show of unity, the event raised over \$150,000 to support children and young adults with complex medical needs.

The event could not have taken place without the support of Maureen Folan, Founder of The Maureen Folan Real Estate Group.

A long-standing supporter of St. Mary's Hospital for Children since 2017, Maureen has made a lasting impact, with contributions exceeding \$40,000 and heartfelt initiatives like annual toy drives during the holiday season.

## New York State Senator Toby Ann Stavisky Playground Renovation

In a truly “game-changing” demonstration of generosity, New York State Senator Toby Ann Stavisky made possible a \$258,000 state-funded grant for a renovation to our facility's playground. The grant will allow St. Mary's to make the playground more inclusive for the unique population of patients the Healthcare System serves, as well as provide more opportunities for patients to receive therapy in an outdoor setting.

The new playground at St. Mary's will give children access to fun play opportunities while promoting different types of physical activity and accommodating patients at all stages of development and differing physical limitations. The grant will expand accessibility to a wide range of patients, including kids with speech

impairments and motor difficulties by adding a wheelchair-accessible merry-go-round, a wheelchair accessible glider, an accessible Zip line, and a symbol panel for non-verbal patients to communicate with their friends during playtime.

# The Many Ways You Give

St. Mary's Healthcare System for Children depends on gifts of all sizes to continue our commitment to improving the health and quality of life for children and families with special needs. We thank and recognize all the individuals and institutions that have helped support our mission and our kids. Our donors never cease to amaze us!

Donations for the period from January 1 through December 31, 2024.

# Looking Forward

At St. Mary's Healthcare System for Children, our future is guided by a commitment to innovation, compassion, and growth. We remain focused on advancing patient care, expanding programs, and embracing technologies that improve the lives of the children and families who depend on us.

In the coming year, we will continue to strengthen our specialized services, expanding access to critical therapies and programs that empower our patients to reach their fullest potential. From groundbreaking rehabilitation initiatives to the integration of new tools that support clinical excellence, St. Mary's is leading the way in pediatric complex care.

As we continue to invest in innovation, one thing will always remain constant: St. Mary's unwavering belief in the possibilities for every child. Together with our staff, families, donors, and community partners, we look forward to shaping a brighter tomorrow where every child has the chance to thrive.
