If you later become incarcerated at a correctional institution or detained by a law enforcement officer, we may disclose your health information to the prison officers or law enforcement officers if necessary to provide you with health care, or to maintain safety, security and good order at the place where you are confined. This includes sharing information that is necessary to protect the health and safety of other inmates or persons involved in supervising or transporting inmates.

Workers' Compensation. We may disclose your health information for workers' compensation or similar programs that provide benefits for work-related injuries.

Coroners, Medical Examiners and Funeral Directors. In the unfortunate event of your death, we may disclose your health information to a coroner or medical examiner. This may be necessary, for example, to determine the cause of death. We may also release this information to funeral directors as necessary to carry out their duties.

Organ and Tissue Donation. In the unfortunate event of your death, we may disclose your health information to organizations that procure or store organs, eyes or other tissues so that these organizations may investigate whether donation or transplantation is possible under applicable laws.

Research. In most cases, we will ask for your written authorization before using your health information or sharing it with others in order to conduct research. However, under some circumstances, we may use and disclose your health information without your authorization if we obtain approval through a special process to ensure that research without your authorization poses minimal risk to your privacy. Under no circumstances, however, would we allow researchers to use your name or identity publicly. We may also release your health information without your authorization to people who are preparing a future research project, so long as any information identifying you does not leave our facility. In the unfortunate event of your death, we may share your health information with people who are conducting research using the information of deceased persons, as long as they agree not to remove from our facility any information that identifies you.

YOUR RIGHTS TO ACCESS AND CONTROL YOUR HEALTH INFORMATION

We want you to know that you have the following rights to access and control your health information. These rights are important because they will help you make sure that the health information we have about you is accurate. They may also help you control the way we use your information and share it with others, or the way we communicate with you about your medical matters.

1. Right to Inspect and Obtain a Copy of Records

You have the right to inspect and obtain a copy of any of your health information that may be used to make decisions about your treatment for as long as we maintain this information in our records. This includes medical and billing records. To inspect or obtain a copy of your health information, please submit your request to **Martha Pellicano, Privacy Officer (718) 281-8587**. Upon your request, we will provide you with a copy of your record in the format you request, if it is available. This includes a paper copy or electronic copy of your record, if it is available. If you request a copy of your record, we may charge a fee for the cost of copying, mailing or other supplies we use to fulfill your request. The standard fee is \$0.75 per page for paper and \$10.00 for an electronic copy. The fee must generally be paid before or at the time we give the copies to you. For St. Mary's Hospital for Children residents, we will respond to your request for inspection of records within twenty-four hours and we ordinarily will respond to requests for copies within two working days. For patients and clients of all other St. Mary's programs, access to your records will be made within ten days of your request.

Under certain very limited circumstances, we may deny your request to inspect or obtain a copy of your information. If we do, we will provide you with a summary of the information instead. We will also provide a written notice that explains our reasons for providing only a summary, and a complete description of your rights to have that decision reviewed and how you can exercise those rights. The notice will also include information on how to file a complaint about these issues with us or with the Secretary of the Department of Health and Human Services. If we have reason to deny only part of your request, we will provide complete access to the remaining parts after excluding the information we cannot let you inspect or copy. You may be charged a fee for the cost of preparing the summary of your record.

2. Right to Amend Records

If you believe that the health information we have about you is incorrect or incomplete, you may ask us to amend the information. You have the right to request an amendment for as long as the information is kept in our records. To request an amendment, please contact **Martha Pellicano, Privacy Officer (718) 281-8587**. Your request should include the reasons why you think we should make the amendment. Ordinarily we will respond to your request within 60 days. If we need additional

time to respond, we will notify you in writing within 60 days to explain the reason for the delay and when you can expect to have a final answer to your request.

If we deny part or your entire request, we will provide a written notice that explains our reasons for doing so. You will have the right to have certain information related to your requested amendment included in your records. For example, if you disagree with our decision, you will have an opportunity to submit a statement explaining your disagreement which we will include in your records. We will also include information on how to file a complaint with us or with the Secretary of the Department of Health and Human Services. These procedures will be explained in more detail in any written denial notice we send you.

3. Right to an Accounting of Disclosures

After April 14, 2003, you have a right to request an “accounting of disclosures” which is a list with information about how we have shared your information with others. An accounting list, however, will not include:

- Disclosures we made to you;
- Disclosures we made in order to provide you with treatment or care, obtain payment for that treatment or care, or conduct our normal business operations;
- Disclosures made to your friends and family involved in your care;
- Disclosures made to federal officials for national security and intelligence activities;
- Disclosures about inmates to correctional institutions or law enforcement officers; or
- Disclosures made before April 14, 2003.

To request this list, please contact **Martha Pellicano, Privacy Officer at (718) 281-8587**. Your request must state a time period for the disclosures you want us to include. For example, you may request a list of the disclosures that we made between January 1, 2004 and January 1, 2005. You have a right to one list within every twelve-month period for free. However, we may charge you for the cost of providing any additional lists in that same twelve-month period. We will always notify you of any cost involved so that you may choose to withdraw or modify your request before any costs are incurred.

Ordinarily we will respond to your request for an accounting list within 60 days. If we need additional time to prepare the accounting list you have requested, we will notify you in writing about the reason for the delay and the date when you can expect to receive the accounting list. In rare cases, we may have to delay providing you with the accounting list without notifying you because a law enforcement official or government agency has asked us to do so.

4. Right to be Notified in the Event of a Breach.

We will notify you if your medical information has been “breached” which means that the privacy or security of your information has been compromised (used or shared in a way that violates the law).

5. Right to Request Additional Privacy Protections

You have the right to request that we further restrict the way we use and disclose your health information to provide you with treatment or care, collect payment for that treatment or care, or to conduct St. Mary’s normal business operations. You may also request that we limit how we disclose information about you to family or friends involved in your care. For example, you could request that we not disclose information about a surgery you had. If you pay for services or health care items out-of-pocket in full, you can ask us not to share that information for the purpose of payment or our operations with your health insurer. We may agree unless a law requires us to share that information.

To request restrictions, please contact **Martha Pellicano, Privacy Officer at (718) 281-8587**. Your request should include (1) what information you want to limit; (2) whether you want to limit how we use the information, how we share it with others, or both; and (3) to whom you want the limits to apply.

We are not required to agree to your request for a restriction, and in some cases the restriction you request may not be permitted under law. *However, if we do agree, we will be bound by our agreement unless the information is needed to provide you with emergency treatment or comply with the law.* Once we have agreed to a restriction, you have the right to revoke the restriction at any time. Under some circumstances, we will also have the right to revoke the restriction as long as we notify you before doing so; in other cases, we will need your permission before we can revoke the restriction.

6. Right to Request Confidential Communications

You have the right to request that we communicate with you or your personal representative about your medical matters in a more confidential way. To request more confidential communications, please contact **Martha Pellicano, Privacy Officer at (718) 281-8587**. *We will not ask you the reason for your request, and we will try to accommodate all reasonable requests.* Please specify in your request how you or your personal representative wishes to be contacted, and how payment for your health care will be handled if we communicate with your personal representative through this alternative method or location.
